

HOUSE FREEDOM CAUCUS: FIGHTING FOR THE AMERICAN TAXPAYER

The Freedom Caucus fought and delivered more in the House's version of the "One Big Beautiful Bill" for President Trump's America First agenda than anyone else in Congress. The Senate must lock in and deliver these wins for President Trump and the American people.

The House Freedom Caucus secured:

- Deficit reduction by 400%, from just \$300 billion to **\$1.5 trillion**.
- Defense funding, protecting it from being exploited to fund a woke, liberal agenda.
- Medicaid work requirements starting in 2026, **not 2029**.
- Green New Deal subsidy **elimination** and others cut back dramatically, requiring projects be operational **before President Trump leaves office**.
- Senior citizens by **equalizing** Medicaid reimbursement rates.
- Illegal Aliens removal from Medicaid, Welfare Programs by deeming them **ineligible for tax subsidies**.
- Medicaid money, barring it's use for sex change operations on **both adults and children**.
- The **end** of tax and regulation of firearm suppressors.
